

How to Save Pictures from the HAMC Website

1. On the hamc.org home page, click on **School Life** and then on **Photo Album** on the drop down list.
2. Click on the name of the album. This will bring up a page with small versions all of the pictures in that album (note that there may be two pages of pictures).
3. Double-click on a picture from the group to open it to full size.
4. RIGHT click on the large picture that comes up.

5. On the menu that appears, click on **Save Picture As...**

6. A new dialog box will come up. Using the down arrow in the **Save in:** field at the top of the popup box, navigate to a folder in which you want to save the picture.
7. If desired, rename the picture in the **File name:** field at the bottom of the popup box.

8. Click the **Save** button.
9. You're done!
